

# Maths Open Week at BPS!

The week beginning **Monday 12<sup>th</sup> November** is Maths Week at Bewdley Primary School. In January, we started using the Maths No Problem scheme and as a school we are really excited by the impact it is having. We would love parents and carers to come and visit their child's Maths lesson and see the great learning for themselves.

## What will happen in an open maths lesson?

The idea is that you will sit alongside your child and experience a 'normal' maths lesson. This will give you a chance to see how we are teaching Maths at BPS using Maths No Problem.

## How do I let my child's teacher know when I'll be coming into school?

Decide which day is best for you to visit and then complete the slip below by **Thursday 8<sup>th</sup> November**. This will give the teachers an idea of how many parents to expect on the day.

## I've decided which day I can attend; what time do I come along?

Maths lessons will start across the school at 9am for this week. Once you have dropped your child off at their classroom door, walk round to the school office to sign in. You will then wait in the school hall until your child comes to claim you! The lessons will finish at about 10am.

## What do I do if I have more than one child in school?

You can either spend one lesson with one child and then come in on another day for your other child. Alternatively, if you are only able to come to one open lesson you can split your time between your children's classes. Please indicate on the form below if this is what you intend to do.

## I hated Maths at school, do I *have* to come?

Yes! Please don't let how you feel about Maths put you off! Your child will love sharing their learning with you – you don't have to actually do any Maths, just see what happens in class. The enthusiasm for Maths is growing with the use of MNP – you may even catch the Maths bug!

## We look forward to seeing you!
