

27th September 2021

Dear Parents/Carers

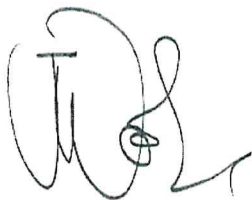

Following another conversation with the Local Outbreak Response Team today, and a number of new Covid cases over the weekend, we have been asked to put in a few more preventative measures.

As you are aware, we have reverted back to bubbles in school in order that children do not mix with pupils outside of their bubble. We are asking that parents/carers are mindful of this and avoid allowing their child to mix with pupils in other year groups when bringing and collecting their child or outside of the school grounds. Additionally, we are asking that parents/carers wear a face covering again when arriving and collecting. We realise that this is not really what anyone wants to do but it may be another factor in helping to reduce further cases. Hopefully, these will be a short term measures and we can go back to normal guidance shortly.

We have not been asked to go back to the one way system and the use of multiple entrance and exit points at this stage but we would ask that if you can maintain distancing around school wherever possible this may also help.

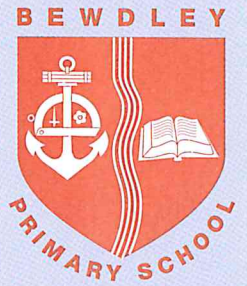

Thanks you for your support and understanding.

Kind regards

Jane Woakes
