

# **Bewdley Primary School**

2020 - 2021

**Pupil Premium Report** 

## Bewdley Primary School Pupil Premium Plan

#### What is the Pupil Premium?

Pupil Premium is the name given to additional funding allocated to schools to raise the attainment of disadvantaged pupils and close the gap between them and their peers. It is generally allocated to pupils who are known to be eligible for Free School Meals (FSM) now or within the last 6 years, to children in the looked-after care system and to the children of service families.

#### What is Pupil Premium Plus?

This is available to pupils from, Reception age to Years 11 in state funded schools who are:

- in the local authority care in England,
- have been adopted from care in England and Wales.
- left care under Special Guardianship Order
- left care under a Child Care Arrangements Order

During 2020 - 2021 all state primary schools received £1,345 for each pupil eligible for FSM now or within the last 6 years, £2345 for each post looked after child and £310 for service children.

#### How much is the Pupil Premium?

Bewdley Primary's Pupil Premium Grant for 2020-21 has been approximately £128185. We have 80 children on our Pupil Premium register which is 22% of the school population.

Schools are free to spend the Pupil Premium as they see fit in order to make most efficient use of the money, including for joint activities involving non-Pupil Premium pupils. However, schools will be held accountable for how they have used the additional funding to support pupils from low income families and are required to show that they are using the funding to "close the gap" between those eligible for Pupil Premium and their peers.

#### **Pupil Premium Plan**

This Plan outlines the strategies used in school to raise the attainment of FSM, LAC, Post LAC and Forces children. It provides:

- a rationale for each strategy, mostly based on the Sutton Trust 'Teaching & Learning Toolkit', which looks at the research evidence for the effectiveness of a range of interventions
- an outline of the organisation of each intervention
- an estimate of cost of each intervention to aid planning and review.

At Bewdley Primary School we believe until a child's basic needs have been met and their self esteem and confidence have grown, they will not be able to access their full academic potential. Our passionate aim is to tackle this vulnerability and impact positively on each and every child that we teach. We want to enrich their lives fully, supporting not only their academic development but their social and personal development also. We aim to do this by offering a diverse range of opportunities to children in addition to a rich and creative curriculum. We use our Pupil Premium funding to contribute to our vision for Supporting The Whole Child; addressing Well-being, Academic Support and Engagement/Enrichment.

Forest School Research now backs up what forest school practitioners have known all along – that children and young people are stimulated by the outdoors and typically experience, over time, an increase in their self belief, confidence, learning capacity, enthusiasm, communication and problem-solving skills and emotional well-being.	Forest School sessions 22% of total Forest School Leader cost = £2129	Positive feedback and engagement from the pupils taking part. Broadening of experiences and supporting the wider curriculum. Improved attendance for some pupils	Continue to provide weekly sessions for pupils in Reception, key Stage 1
Additional Maths Support  Maths results were below national expectations particularly for PP pupils through the whole school Several PP children were slightly below ARE and needed further motivation, guidance and support	TT Rockstars £158	Pupil progress for PP pupils has improved in the targeted groups Pupils highly motivated by TTRockstars	Continue to subscribe to TT Rockstars
Accelerated Reader Accelerated Reader has proven results to show that supports pupil progress in reading and, in particular, has the greatest impact on pupil premium pupils. Reading remains one of the most important skills in supporting progress through the wider curriculum. Roll out to KS1.	Subscription £2344 Staff ongoing Training £200 Purchase of new books £3000 Release Time to organise system £ 300 COST = £5844  Subscription to MyOn online reading to enable pupils to access AR during lockdown periods (paid for with Covid Catch Up premium) £2000	Results indicate that pupil reading ages are improving particularly for PP pupils. Greater motivation and engagement and access to a wider range of quality reading materials. Several PP pupils have been invited to attend a Book Club and have been enthusiastic about belonging to this	Continue to subscribe and enhance reading material in school Introduction of whole class guided reading which increase exposure to wider language and vocabulary and enables less able readers to access and understand higher level texts
Spelling Shed  Spelling results are below national results particularly with PP pupils	Staff Training/monitoring and organisation time £250		Continue to develop throughout the school
Transport Support for pp pupils leaving at a distance with a taxi to improve attendance	£6.60 x $5x14 = £462$		

### **Evaluation 2020 - 2021**

Due to the Coronavirus outbreak and subsequent Lockdown of the school, there is no end of year data to measure the progress made by PP pupils.

Teacher Assessed Results for Year 6 indicated that:

73% of PP pupils achieved ARE in Reading (27% Greater Depth)

60% achieved ARE in Writing (7% Greater Depth)

60% achieved ARE in Maths (7% Greater Depth)

This took into account the impact of nearly a term of lockdown and it is possible that more children would have made expected progress has this not happened. 25% of the cohort were PP of which 53% were also on the SEND register.

The PP pupils across school were supported well through lockdown either by being invited into school as vulnerable learners, individual checkups throughout or the programmes of learning provided by the class teachers. The school loaned electronic equipment to several PP pupils so that they could participate in the home learning and lack of participation was followed up with personal calls by teaching staff or the Sendco.

The school delivered several food parcels during Lockdown to families that were struggling and home visits to some pupils were made as a check-up.

The feedback from parents was very positive.

The school was able to provide places for all vulnerable learners and the take up on school provision was high.

How are we planning to use the Pupil Premium funds in 2021–22? In addition to last year's interventions and support, we are providing the following:

1:1/1:small group	tuition for LAC pupils
Additional resource and relevant apps	ces for classes to support PP pupils with independent learning including more iPads
Direct support fro	m Sendco on TIS approach to embed across the school
Reading resources Books for LAC pup	s / Books for Accelerated Reader Scheme/ Books for whole class guided reading oils
Set up the Hub to 80% of these pupi	provide bespoke learning for SEND pupils working well out of ARE. Is are PP

Small group tuition will be available for pupils from Year 2 upwards to close gaps from Covid absence. A high proportion of these pupils will be PP. This will be funded from Covid catch up premium.

Purchase further resources to support speech and language interventions

# Reporting

The school is responsible for reporting how the Pupil Premium is spent each school year and how effective it has been. The reporting needs to be done via the school website for each academic year.

Effectiveness is based on progress compared with similar children nationally as reported in ASP FFT Aspire for KS1 & KS2 assessments annually in October and on the gap between these groups of children and the average for each cohort across the school.

How the school use PP and the effectiveness of the use will form part of the evaluation of how effective the school is in meeting the needs of its pupils and be reported by OFSTED in their inspection of the school.
