TIMES TABLES

We are practicing the **10** times tables.

Bill Haley -
Rock Around the Clock

MATHS NO PROBLEM!

We are learning to subtract by crossing out.

$$8 - 3 = 5$$

5 monkeys are left in the tree.

$$8 - 3 = 5$$

We read - as minus.

It means subtract.

$8 - 3 = 5$ is a subtraction equation.
We say eight minus three equals five.

The most important thing to do at home is to read with your child each day.
