

Thursday, 9th July, 2026

Dear Parent and Carers,

In response to the Met Office weather warnings affecting our region and the intense heat inside the school building, we have made the decision to **close the school for children in Reception to Year 6 from 1:15pm tomorrow.**

The forecast conditions present a significant health and safety risk for our children and staff and after careful consideration we believe that closing the school during the hottest part of the day is the safest course of action.

This decision is in line with both The Bewdley School and St. Anne's Primary School.

We appreciate that this closure may create challenges for families, and we apologise for both the late notice and the inconvenience this may cause. However, the safety and wellbeing of our children and staff must remain our highest priority.

We have also taken the decision to **close Nursery for the whole day tomorrow.** This is not specifically due to the heat but more so today's sickness issues effecting both children and staff.

We will continue to monitor the temperature situation closely and will provide any further updates regarding future arrangements as soon as possible - particularly for next week's school events.

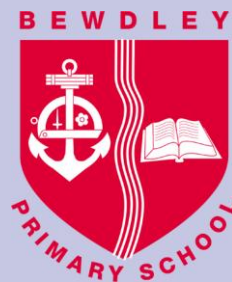

Thank you for your understanding, continued support, and cooperation.

Thank you all for your support and understanding.

Kind regards,

Amanda Bradley
Headteacher
