

# Envirosort Trip

Tuesday 17<sup>th</sup> November 2026 (Lewis)

Year 5 are set to become eco-warriors next half term, when we study Plastic Pollution as a topic! As part of this, we have been fortunate enough to organise a **free** trip to the EnviroSort plant in Norton. This plant receives, sorts and despatches all the clean recyclables collected from households across Worcestershire and Herefordshire.

This exciting educational visit will give the children a unique opportunity to go behind the scenes and discover what really happens to the materials we place in our recycling bins. Through an engaging tour and interactive activities, the children will see how different recyclable materials are sorted, processed and prepared for reuse. The visit is designed to be highly interactive, giving children the chance to engage with recycling experts, ask questions and see the sorting process in action. It is a Year 5 favourite!

We will be leaving school at around 9.15am and are aiming to return to school at 1.30pm so the children will need to be dropped off and picked up from school at the usual time.

As part of this trip, the children will need to be dressed in **full school uniform** and have a suitable **coat** for the weather. Please make sure your child has a **packed lunch** and a **full water bottle**. We will be speaking to the children about bringing a 'waste-free' packed lunch with them if possible! There will be a prize for the most impressive waste-free lunch!

Please follow the link below which will take you to our permission survey. Please respond to the survey, even if you do not give permission for your child to come on the trip, by **Friday 16<sup>th</sup> October**.
