

✦ Year 6 November Maths Booster Club! ✦

We are delighted to invite your child to take part in our **November Maths Booster Club** with a special focus on calculations!

These short, focused sessions are a fantastic opportunity for children to practise key mathematical skills, build their confidence and improve their accuracy. We have seen how much of a difference these extra opportunities can make, helping children feel more secure and confident in their maths learning.

When will the sessions take place?

The Booster Club will run **three times a week, every Wednesday, Thursday and Friday morning**, from **8.15 am to 8.30 am**.

We believe that short, regular bursts of practice are more beneficial than one longer session each week, giving children the chance to revisit and strengthen their skills little and often.

Our November Booster Club will begin after half term, with the first session on Wednesday 4th November. There will be 12 sessions in total, with our final session taking place on Friday 27th November.

What do the children need to know?

- **Arrival time:** Please bring your child to the **Year 6 entrance at 8.10 am**, ready for a prompt 8.15 am start.
- **A little snack:** As the children will be arriving before the usual start of the school day, they are welcome to bring a small snack to enjoy during the session if they wish.
- **Breakfast Club:** If your child attends Breakfast Club, they will be reminded to walk down to the classroom for their session.
- **The school day:** Once the session finishes at 8.30 am, children will join their classes as normal for the start of the school day.

We are really looking forward to working with the children, helping them sharpen their calculation skills and giving their mathematical confidence a boost!

If you have any questions or queries, please do get in touch.

Thank you for your support. We look forward to seeing your child at our first session on **Wednesday 4th November!**

The Year 6 Team
